

# Key Risk Training Solutions

*Now everybody can learn*

## IRL1 (Investigator & Researcher) Training Course, Level One

### COURSE OVERVIEW

In the private investigation industry, there are many who join the profession with little or no prior experience, other than third-hand and often unreliable influences, and as a result quickly find themselves out of their depth, unable to comply with appropriate legislation, gather information ethically, or mitigate the risks unique to the industry. This exposes not only themselves, but also their employers and clients, to risk.

This introductory level course has been designed to provide new entrants to the private investigation industry, as well as those who have limited exposure to the work required, with a range of essential skills and knowledge to enable them to quickly become effective investigators or researchers. Each subject module has been carefully designed and presented to ensure students gain confidence and skills that will ensure they are effect and professional operators, thereby enhancing their careers.

The course is taught over 3 days by experienced lecturers with a diverse background in the fields of investigation and research. Training consists of classroom sessions supplemented by many case examples, hands-on practical sessions and a one-hour multiple-choice examination paper that, on successful completion, students will be presented with a certificate of excellence.

### COURSE SYLLABUS

The Level One course consists of the following individual subject modules:

Code	Course Description
LEC	Legal & Ethical Considerations
TIP	The Investigation Process
IIT	Introduction to Investigation Techniques
DWC	Dealing with Confrontation
